

## WORKSHOP - WET FELTED FLOWERS WITH BEADED CENTERS

**Description:** We'll make easy very colorful flowers with a little wool roving, soap and water, I'll show you every step for a few different styles. Then we will do some easy and fast beadweaving centers (you could also use these for earring or pendants) that look like you spent hours. Two fun techniques in one class, with so many possibilities! Bet you can't make just one! Supply list will have sources to order from, or let me make you a kit!

Wet Felted Flowers with Bead weaving centers

Phyllis Cullen
